I. INTRODUCTION, METHODOLOGY & PRODUCT DEFINITIONS

II. EXECUTIVE SUMMARY

1. Industry Overview .............................................. II-1
   Global Market Outlook ......................................... II-1
   Current and Future Analysis .................................. II-1
   Review by Geographic Region ................................ II-1
   Review by Product Segment ................................. II-2
   Review by End Use Segment ................................. II-2
   Historic Review ................................................... II-2

2. Market Dynamics .............................................. II-3
   Trends and Issues ............................................... II-3
   Right Closure – Key for Packaging ....................... II-3
   Swift Growth Ahead for Caps and Closures ............ II-3
   Convenient Closure Designs on Demand ............... II-3
   Plastic Closures: The Major Product Segment .......... II-3
   PP Leads Closure Market ....................................... II-4
   Plastic Offers Most Freedom in Design ................. II-4
   Emerging Applications Drive Demand for ............ II-4
   Plastic Closures ................................................ II-4
   Rubber: The Best Among Others ........................... II-4
   Beverages: The Major End-Use Segment ............... II-4
   Wineries Get Attracted to Screwcepa .................... II-5
   Synthetic Wine Closures Get Major Boost ............. II-5
   Closures for Kids ............................................... II-5
   Rising Intricacy in the Closures Market ............... II-5
   Innovative Technologies Reduce Closure Costs ...... II-5
   Active Oxygen Scavenging – The Latest in ........... II-6
   Closure Technology ............................................. II-6
   Caps and Closures as Marketing Tools ................. II-6
   Closure Manufacturing Pressures ....................... II-6
   Key Features for Closure Safety .......................... II-6
   Secondary Safety Features for Superior Capping .... II-7
   Dispensing Closures Gain Popularity ................... II-7
   Overcap ............................................................ II-7
   Pinchproof Push-Pull Closure ............................ II-7
   Demand Drivers for Closures ............................. II-7
   Consistent Closures Work Effectively with the Package .... II-8

3. Product Overview ............................................ II-9
   Closure – Definition ........................................... II-9
   Types of Caps and Closures by Material Used ......... II-9
   Plastic Caps and Closures .................................. II-9
   Press-On Closure ............................................. II-9
   Non-Threaded .................................................. II-9
   Polyethylene Snap Cap ..................................... II-9
   Snap Fit Closure ............................................... II-9
   Snap-On Cap Closure ........................................ II-9
   Dispensing Closure ......................................... II-10
   Twist Open/Close (Dispensing) Closure ............... II-10
   Flip-Top (Dispensing) Closure ............................ II-10
   Hinged (Dispensing) Closure ............................. II-10
   Pump (Dispensing) Closure ................................... II-10
   Push-Pull (Dispensing) Closure ........................... II-10
   Toggle-Swing (Dispensing) Closure ....................... II-11
   Trigger Sprayers (Dispensing) Closure ................. II-11
   Valved (Dispensing) Closure ............................. II-11
   Linerless Closure ............................................ II-11
   Plastic Caps for Dairy Applications .................... II-11
   Press-on Cap ................................................... II-11
   Threaded Cap .................................................. II-12
   Compression Liner ............................................ II-12
   Milk Cap ........................................................ II-12
   Other Plastic Closures ....................................... II-13
   Metal Caps and Closures ................................... II-14
   Child – Proof Caps ............................................. II-14
   Non Child-Proof Caps ........................................ II-14
   Child-Resistant Closure (CRC) ........................... II-14
   Continuous Thread Closure ................................ II-14
   Crown Closure ................................................ II-15
   Lug Closure .................................................... II-15
   Screw Closures ............................................... II-15
   Roll-On Closure ............................................... II-15
   Tamper Band .................................................... II-16
   Tamper-Evident Closure .................................... II-16
   Steel Vacuum Button ........................................ II-16
   Aluminum Breakable Closure ............................. II-16
   Tamper Evident Breakaway Band Closure .............. II-16
   Tamper Evident Tear Band .................................. II-16
   Press-On/Twist-Off Closure ............................... II-17
   Vacuum Closure ............................................... II-17
   Screw and Lug Caps ......................................... II-17
   Spot Crown .................................................... II-17
   Other Metal Closures ........................................ II-17
   Other Caps and Closures .................................... II-18
   Cork ............................................................... II-18
   Wine Corks ..................................................... II-18
   Synthetic Wine Cork ......................................... II-18
   Regular Length (RL) Tapered Cork ...................... II-18
   Shorter Length (SL) Tapered Cork ....................... II-18
   Finger Pull Tapered Cork Stoppers ...................... II-18
   Personalized Custom Printed Cork Stoppers ........... II-18
   Plastic Topped Corks ....................................... II-18
   Bark Top Corks ............................................... II-18
   Figurine Bottle Stoppers .................................... II-18
   Rubber Caps .................................................... II-19
   Silicone Rubber Caps ...................................... II-19
   EPDM Rubber Caps ........................................... II-19
   Vinyl Caps ..................................................... II-19
   Vinyl Rubber Caps ............................................ II-19
   Some More Types of Caps and Closures ............ II-19
   Deep Screw Cap ............................................... II-19
   Friction Cap .................................................... II-19
   Cap Liners ....................................................... II-20
   Spout Cap ....................................................... II-20
   Stacker Cap ..................................................... II-20
   Unlined Closure ............................................... II-20
   Valve Cap ....................................................... II-20
CAPS AND CLOSURES
A GLOBAL STRATEGIC BUSINESS REPORT

CONTENTS

4. Raw Materials ..................................................... II-21
Polypropylene – The Ideal Raw Material ........................ II-21
Homopolymers and Copolymers ................................ II-21
HDPE and LDPE Injection Molding ............................. II-21
Injection Molded Closures ....................................... II-22
Molded Plastic Closures .......................................... II-22
Rigid Plastic Caps and Closures ............................. II-22
Thermoplastic Elastomers .................................... II-22

5. Caps and Closures - An End Use Analysis ........ II-23
Novel Closures for Specific Applications .................. II-23
End Use Segments .................................................. II-23
Beverages .................................................................. II-23
Cork and Synthetic Closures – Best for Wine .......... II-24
Cork ..................................................................... II-24
Granulated Cork ..................................................... II-24
Crown Seal .......................................................... II-24
Screwcaps ............................................................ II-24
Plastic ..................................................................... II-24
Agglomerate Corks ................................................ II-24
Cosmetics and Toiletries ......................................... II-24
Food ....................................................................... II-24
Growing Demand for Closures in the Dairy Market .... II-25
Evolution of Dairy Container Caps .......................... II-25
Household and Automotive Chemicals .................. II-25
Pharmaceuticals ....................................................... II-25
Other Applications .................................................. II-25

6. Insight into Select Closure Types .......................... II-26
Plasti-Twist Closure .................................................. II-26
Twist-Off Closures .................................................. II-26
PT (Press-On Twist Off®) Closures ........................... II-26
Combo Closure ....................................................... II-26
IDEAL Closure .......................................................... II-27

7. Technological Breakthroughs/Innovations .......... II-28
ProCork Technology from Australia ....................... II-28
Portola Introduces Fusion Cap .................................. II-28
Gardner Technologies Unveils MetaCork and MetaSeal Closures .............................................. II-28
MG5 Develops Multi-Material Rotary Stack-Mold System ................................................... II-29

8. Product Developments/Introductions ................. II-30
Amcor White Cap Introduces 63mm PT Closure in Europe .................................................. II-30
Alcoa Introduces VinTegra ......................................... II-30
Amcor Unveils 40mm Band-Guard Closure ................ II-30
CROWN Closures Europe Introduces New EuroCapper Machine ............................................. II-30
CROWN Zeller Launches 24 Plastic Closures ........ II-30
Amcor Introduces 33mm Plasti-Twist® Cap .............. II-30
Crown Launches New AquaGuard™ Plastic Closure.. II-30
Crown Rolls Out Two New Closures ......................... II-31
New Multipurpose Closures from BERICAP Group ..II-31
Pako Launches New Plastic Packaging ................... II-31

Crabtree & Evelyn Introduces Organic Product Line with Premium Closures ...................................II-31
New Worldwide Website for Closure Solutions from Alcoa CSI ............................................. II-31
Rexam Closures Launches 38mm TIEFF Closure ........ II-31
Rexam Closures Unleashes 28mm Flat Cap .............. II-32
Alcoa Unveils XT Closures ........................................ II-32
Sud-Chemie Adds Range of Caps and Closures ....... II-32
Alcoa Develops Seal-MAX For Dairy Packaging .........II-32
Alcoa Unveils Alco-Lok Closure Line ........................ II-33
Alcoa Unveils Retort and Slider Zippers ..................... II-33
BlackHawk Molding Unveils Super Quad Cap ........... II-33
Integra-Seal Improves 38mm Snap-on Cap .............. II-33
Elokap Introduces Pure-Cap ........................................ II-33
Seaqust Unveils Heinz Trap Cap ............................... II-33
ZapaT Introduces FlipSeal Polypropylene Closure .......II-33
Nodor Launches New Dispenser-Adapter................ II-34
CCL Unveils Press-top Dispensing Closures ..............II-34
Bericap Unveils Twist and Snap-on Closures .......... II-34
Airspray Unleashes New Pump Foamer/Dispenser ......II-34
Carow Unveils Universal Pump Adaptor ..................... II-34
SeaqustPerfect introduces a Specialty Actuator ......... II-35
Rieke Packaging Develops Directional Spout ............ II-35
Canyon Launches T95 Trigger Sprayer ....................... II-35
Tri-Seal Launches Induction Seals ............................. II-35
Rexam Introduces C-R Closure ................................. II-35
Polytop Introduces Polycem PS-360 Closure ............. II-35
The Kerr Group Unveils Deep-skirted Closure ......... II-36
Sanner Launches Hinged Closure ............................. II-36
Phoenix Launches Buttress-Thread Cap .................... II-36
Portola Packaging Develops Water-Bottle Caps ....... II-36
O. Berk Offers a range of Metal and Plastic Closures .II-36
Fenton, Weber & Jones Packaging Offers a Range of Closures .................................................. II-36
New Shake-and-Pour Caps Developed for Composite Cans .................................................. II-37
M&R Industries Unleashes Reusable Screw-On Lid ......II-37

9. Recent Industry Activity ...................................... II-38
Crown Holdings Divests Plastic-Closures Business ....II-38
AptarGroup to Acquire EP Spray System .................. II-38
Alcoa Strikes a Deal with Kroger ............................... II-38
Shivalik Closures Sets Up Bottle Caps Manufacturing Unit ...................................................... II-38
CCL Takes Over CCL-Pachem .................................. II-38
CCL to Purchase Merroc’ Assets ............................. II-38
Alcan Acquires Propack ........................................... II-38
AptarGroup Takes Over MBF Development SAS .......II-39
Owens-Illinois Divests Plastics Assets .................... II-39
Saint-Gobain Establishes New Plant ....................... II-39
Integra Opens New Plant ........................................ II-39
Silgan Completes Acquisition of Amcor White Cap LLC ....II-39
Amcor Acquires Schmalbach-Lubega’s White Cap ....II-39
Closure and PET Container Business ..................... II-39
Kerr Group Acquires U.S. Packaging Businesses ....... II-40
Owens-Illinois Divests Closure Assets ..................... II-40
